

## **The University of Tokyo Faculty Position / Solid Earth Science**

The Department of Earth and Planetary Science, Graduate School of Science, the University of Tokyo invites applications for a position as an associate professor in Solid Earth Science.

We seek a creative individual with a PhD or equivalent qualification and research expertise in the broad field of tectonophysics with preference given to candidates who have a track record in the use of information derived from geodesy and geomorphology. The successful candidate will be appointed at the earliest possible date. He or she will be expected to exercise leadership, to work collaboratively with other members of the solid earth group and the other groups in the department, and to give lectures and supervise laboratory and field courses at both undergraduate and postgraduate levels. If not already fluent in Japanese, he or she will be expected to achieve fluency sufficient for giving lectures and performing administrative duties within several years.

Interested persons should send (a) a curriculum vitae, including a list of publications; (b) statements of (i) their research experience, (ii) their teaching experience, (iii) their future research plans, and (iv) how they intend to contribute to undergraduate and graduate education in our department if appointed (about 2000 words in total); (c) reprints of five of their major publications (pdf files allowed); and (d) the names, addresses, and e-mail addresses of two references. Applications must be received by May 26, 2017 via either e-mail or postal mail.

### **E-mail submission:**

Send the above documents as one or more PDF files to the following mail address.

solid-jinji@eps.s.u-tokyo.ac.jp

State “Associate Professor in Solid Earth Science” in the subject line. The total size of PDF file(s) attached to an e-mail message must be less than about 10MB. A receipt will be sent by e-mail within two business days after receiving the application.

### **Postal-mail submission:**

Send application documents to the following address by registered mail. State “Associate Professor in Solid Earth Science” on the envelope in red ink. Submitted application documents will not be returned unless requested.
