## Press Release Yoshio Takahashi (Professor, Earth and Planetary Science)

### Summary

Sample return mission of Hayabusa 2 has a scientific goal to understand “where we came from.” In order to analyze the origin and evolution of the solar system and original source material of the ocean and life of the Earth, initial analysis teams consist of 6 groups with different approaches.

Online press conference and lab tour is scheduled on Friday, June 25, 2021.
